

WOW if this isn't the truth!! You know what's absolutely ridiculous...that it has taken, of all things, damn gas prices to wake a lot of people up!

- Pedophilia hasn't done it.
- Biden laptops proving corruption didn't do it.
- Democrats instigating attacks on conservatives (or anyone they don't agree with) didn't do it.
- Biden leaving thousands of Americans in Taliban controlled Afghanistan didn't do it, nor did Hillary Clinton leaving Americans to die in Benghazi.
- Hillary's illegal and fake Steele Dossier used to gain FISA warrants to spy on another candidate's campaign didn't do it.
- Big Tech and MSM censorship of anyone questioning their narrative didn't do it.
- 2 years of bs on COVID with ever changing advice, anti science measures that have been proven so by thousands of upright doctors and scientists didn't do it.
- Fauci's emails showing he lied to us about the origins of C- 19 and that he knew masks were ineffective didn't do it.
- 2 bogus impeachments based on proven lies about Trump didn't do it.
- Multiple state legislative hearings documenting hundreds of thousands of fraudulent votes in 2020 didn't do it.
- Full denial of thousands upon thousands of military religious exemptions for vaccine mandates didn't do it.
- Months of encouraging "mostly peaceful protests" that destroyed cities and livelihoods of many Americans didn't do it

Damn GAS PRICES is what it has taken to wake a lot of people up! The absurdity of that in the face of all the other unbelievable atrocities these evil ass people have been shown to be doing can not be overstated!
